

Part # 60080

2015-up Ford Mustang GT

V-8 5.0L

CGS Installation Instructions

PLEASE DIRECT ALL INSTALLATION QUESTIONS TO CGS @ (909) 902-0102
DO NOT CALL THE RETAILER IN WHICH YOU PURCHASED YOUR CGS SYSTEM

Thank you for choosing a CGS Cat-back Exhaust System™ to power your vehicle. These instructions will take you through the installation of your new axle back exhaust system.

Kit includes:

Qty.	Description	Part#
1	Head Pipe w/cross over	300-1123
1	Driverside pipe	300-1124
1	Pass. side pipe	300-1125
1	Driverside Muffler Assy.	300-1126
1	Pass. side Muffler Assy.	300-1127
4	3" Clamps	

1) Remove stock Exhaust System

First start by removing the stock headpipe by loosening the nuts on the clamps in front of the stock resonator. Next you will need to remove the factory rubber exhaust hanger at the rear end crossmember (DO NOT discard, you will reuse these exhaust hangers), this will help with the removal and installation of the new system. Slide the stock system off the rubber exhaust hangers and remove the system from under the car.

2) Installing your Axle Back Exhaust System

Now first you will install the headpipe w/cross over. Slide the smaller end into the stock clamps at the front and snug them up. Next you will slide pipe# 300-1124 into the the X-pipe and install the stock rubber hanger at the rear and be sure that your new hanger is slid into the hanger and bolt it up. Now you will repeat the last step with pipe# 300-1125. You can now install the clamps at the front but DO NOT tighten. Once both mid pipes are install will are ready to install the Muffler Assemblies, Slid the bracket into the rubber hanger and now slid the pipe end into the mid-pipe. Repeat this step on the other side and when you are finished you can install all clamps. After both sides are in the correct position and you have double checked that everything is straight and line up, you are ready to tighten all the clamps.

3) Final checklist

Be sure everything straight and lined up and be sure all clamps are tight. That's it, a **simple install with a lot of results.** Congratulations! You just installed more horsepower to your Mustang by allowing it to breathe easier with a CGS Cat-Back Exhaust System™.

Thank you again and enjoy your new CGS Cat-Back Exhaust System™.
